# DEDICATED TO QUALITY

*S&W Machine Shop is committed to delivering superior quality products and service*

---

Founded over 60 years ago, S&W Machine Shop, Inc. has thrived because of strong customer relationships, built upon quality, reliability and honesty. We are dedicated to deliver:

- < QUALITY PARTS & SERVICE
  - < ON-TIME DELIVERY
  - < CLIENT SATISFACTION
- 

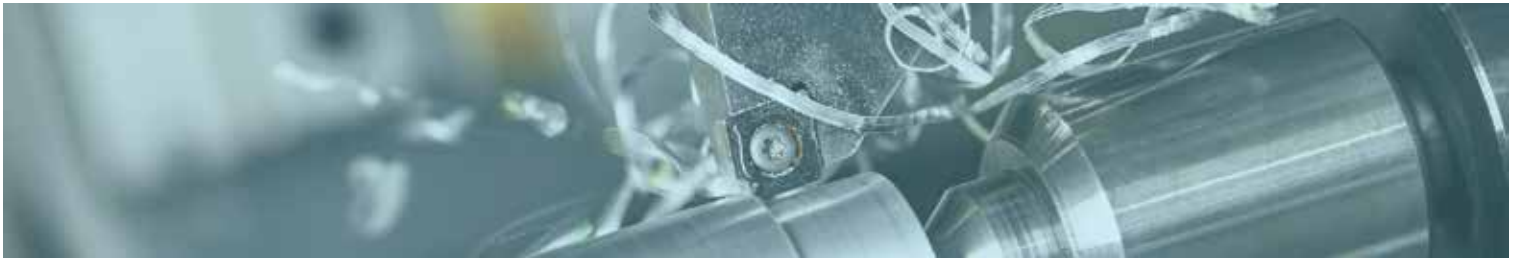

## HOW WE DELIVER SUPERIOR QUALITY

---

- < API 5 CT LICENSED AND API Q1 COMPLIANT
- < HIGHLY SKILLED MACHINING CAPABILITIES
- < STATE OF THE ART EQUIPMENT
- < STRINGENT QUALITY INSPECTIONS 5CT-0037

---

## METAL MACHINING, FINISHING & FABRICATION

---

### CNC MACHINING

---

We maintain a fleet of state of the art CNC and manual turning and milling cells, at our 27,000 sq. ft. facility in New Iberia, LA, USA.

---

### PHOSPHATING

---

We have one of the largest phosphating tanks in the region. Phosphating improves coating adhesion, corrosion resistance and lubricity in parts forming.

---

### GEARS

---

We custom machine spur, sprocket and spline gears for energy, chemical, marine and other industrial applications.

---

### THREADING

---

We produce API / premium threading, including API Spec 5CT, Weatherford, Command Energy, Acme and others.

---

### FABRICATION

---

As a full service machine shop, S&W Machine offers a range of metal fabrication services. Please contact us for details.
